This is only to give an idea for you to know the \$20 deposit charged for estimates is not wasted, and neither is my time...

There is a discount for multiple estimates which can be found on the *For Sale* page:  
[http://www.yankeelake.org/yankeelake\\_restoration\\_services\\_3\\_010.htm](http://www.yankeelake.org/yankeelake_restoration_services_3_010.htm)

Your appraisal deposit will apply to any work that is to be done.

Time to completion of work can only be estimated as well and will require a signed agreement detailing the scope of work to be done.

We provide careful professional cleaning services for most pottery which usually fails to respond to traditional methods... We reconstruct ceramics using proprietary non-browning glues appropriate to the type of ceramic body under consideration for repair. Damaged or previously repaired pieces often require disassembly, reconstruction, filling of missing material, repainting by hand and airbrush and re-glazing to complete an invisible restoration.

Be confident of our finished product, as per the manufacturer: *The glaze system used for restoration has been specially developed for the re-glazing of repairs on china, ceramics porcelains etc. It cures to a tough; almost glass hard finish, which has excellent non-yellowing characteristics. The glaze is the latest and most advance system of its type and has been approved by museums for restoration work. It has excellent water resistance and has been tested for 20 cycles in a dishwasher at 60°C (140°F) without signs of deterioration.*

**The Estimate Agreement can be found on the following page and will be completed, returned to you for approval and received by YankeeLake Restoration Services prior to work started.**
